The bottom half of the page is dominated by an abstract graphic of overlapping, flowing, translucent waves in shades of blue and purple. # FOREWORD FROM CHAIR

---

This has been another landmark year for the Muslim Women's Network UK (MWNUK). We remain focused on our aim of gathering evidence about the experiences of Muslim women and girls on key issues affecting them and using the information to improve their rights through advocacy and campaigning.

A move in June 2014 to a more centrally located office space in Birmingham, and the launch of the Muslim Women's Network Helpline in January 2015 has seen us expand our staff and welcome dedicated volunteers to help us deliver our mission. Shaila Pervez who began volunteering last November recently joined the staff team as Helpline Support Worker.

By continuing to expand the project work we do on issues affecting Muslim women in Britain, we have successfully increased our funding support to three times the amount as compared to last year. Such project work has allowed us to demonstrate clearly the wealth of our experience and knowledge as an organisation, and also how our work can make real positive impact on the lives of Muslim women in Britain. Such immediate tangible outcomes balance our long-term efforts at being a pioneering organisation which is not afraid to uncover and tackle uncomfortable truths fearlessly, honestly and independently by taking action, which is always in the interests of Muslim women and girls.

We know that building a dynamic network of individuals and organisations requires the fostering of relationships over time, and effective processes. We have done the groundwork and successfully expanded to over 700 registered members, and have built strong partnerships with inspirational network members. Going forward, we will seek to better develop local, regional and national networks to build a stronger critical mass of voices.

As a small national charity, our achievements are only made possible by the commitment and time spent above and beyond the calls of duty of Board, staff and volunteers. Our recent nomination for the National Diversity Awards 2015 under the 'Community Organisations for Gender' category is testament to our increasingly reputable national profile.

I look forward to continuing our collaborations to transform the lives and opportunities of Muslim women in the UK.

**Shaista Gohir**

# ABOUT MWNUK

---

MWNUK ([www.mwnuk.co.uk](http://www.mwnuk.co.uk)) is a UK wide network of women and men that shares knowledge, connects the voices, and promotes the needs of diverse Muslim women. MWNUK's vision is a society where Muslim women have an effective voice and opportunity to exercise their rights to contribute equally. We gather evidence about the lived experiences of Muslim women and girls on key issues affecting them through research and enquiries we receive on the Muslim Women's Network Helpline, and use the information to improve their rights through advocacy and campaigning.

MWNUK works within a framework of human rights, justice and Islamic feminism. We are member focused, inclusive and accountable in all that we do. We are committed to gender equality and value diversity. We are independent from all established political, governmental and religious institutions. We recognise that networks provide a mechanism for sharing knowledge, raising the profile of individuals, organisations and issues, and influencing policy and attitudes, and for building a critical mass of voices.

## PUBLIC BENEFIT

The board of directors confirm that they have complied with the duty in the Charities Act 2011 to have due regard to the Charity Commission's general guidance on public benefit. MWNUK's activities, which include project management, service delivery, research and advocacy and campaigning, all provide public benefits. Public benefit is also demonstrated throughout this report.

## CHARITABLE OBJECTS

The charity's objects are:

(1) The promotion of equality and diversity for the public benefit, in particular by advancing education and raising awareness in equality and diversity, and promoting activities to foster understanding between people from diverse backgrounds.

(2) To promote social inclusion for the public benefit by working with people who are socially excluded on the grounds of their sex, ethnic origin, religion, belief or creed (in particular, women in the Muslim community) to relieve the needs of such people and assist them to achieve their potential and integrate into society, in particular by:

a. Providing forums that encourages and enables members of the Muslim community to participate more effectively with the wider community;

b. Increasing, or coordinating, opportunities for members of the Muslim community to engage with service providers, to enable those providers to adapt services to better meet the needs of that community.

(3) The promotion of religious and racial harmony for the benefit of the public by promoting knowledge and mutual understanding and respect of the beliefs and practices of different religious and racial groups.

# PRINCIPLES AND PRIORITIES

---

## PRINCIPLES

In May 2015 we conducted a strategic review of our core values, and developed 5 principles that underpin our work and are at the heart of everything we do:

### **Principle 1**

We are an Islamic feminist movement that uses the Quran's spirit of equality and justice to challenge human interpretations (based on culture and tradition) that discriminate against women and girls, to achieve equal rights and opportunities for all.

### **Principle 2**

We uncover and tackle uncomfortable truths fearlessly, honestly and independently by taking action, which is always in the interests of Muslim women and girls.

### **Principle 3**

We are informed by the voices of Muslim women and girls by gathering evidence of their lived experiences.

### **Principle 4**

We bring about real change through innovative thinking and doing, which positively affects the treatment of Muslim women and girls, resulting in a better society for all.

### **Principle 5**

We demonstrate our inclusivity and non-judgmental stance throughout our policies, procedures and our work.

## PRIORITIES

We also reviewed MWNUK's strategic priorities in May 2015, taking into account network member priorities and enquiries received through the Muslim Women's Network Helpline. It was felt that the following priority areas will continue to be our focus.

- 1)** Sharing understandings of gender in Islam from a human rights perspective.
- 2)** Sharing knowledge of gender equality in UK family laws, marriage and divorce
- 3)** Changing attitudes to abuse against women and girls
- 4)** Changing attitudes to mental health
- 5)** Changing attitudes to women's leadership
- 6)** Supporting actions to address Islamophobia and discrimination

# MEMBERSHIP

---

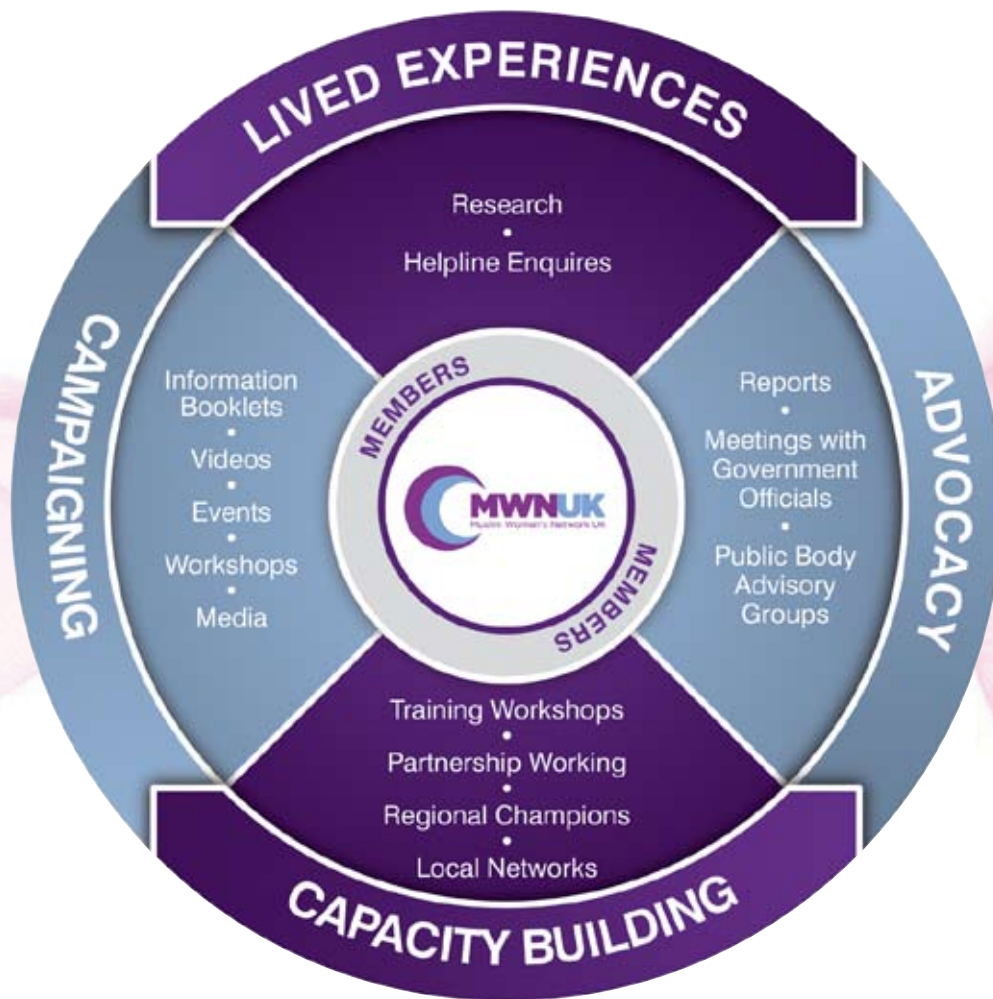

Muslim Women's Network UK (MWNUK) is the only national Muslim women's organisation in the UK with over 700 members with a collective reach of tens of thousands of Muslim women.

Our members are mainly Muslim women living in the UK while our non-Muslim members work with or on behalf of Muslim women and girls or are simply interested in supporting their rights. Our membership is diverse in terms of ethnicity, age, religious background (including religious sect), lifestyles, sexual orientation, geographic location and different employment sectors. Members also include men who wish to support and champion women's rights. They are academics and students; voluntary sector and support services workers; health and legal professionals; experts in women's rights, diversity policy, disability and asylum; law enforcement officers and local government officials. Each of our members, whether individuals or organisations, are connected to other networks and audiences, thus multiplying our reach to thousands of women.

Membership is open to all those who support the aims of MWNUK. In addition to members we have over 345 individuals and agencies signed up to our mailing list. The majority of members have found us through our website ([www.mwnuk.co.uk](http://www.mwnuk.co.uk)), but as the profile of MWNUK increases more individuals are joining through word of mouth.

MWNUK works to improve the social justice and equality for Muslim women and girls. We find out about the experiences of Muslim women and girls through research and our helpline enquiries. We identify policy and practice gaps and use this information to inform decision makers in government (including at Ministerial level) and other public bodies. Our knowledge about the issues faced by Muslim women and girls also inform our community campaigns. We also develop resources and training so women and girls are better informed about their rights and how to access support and help.

Our specific projects can be found in the Our Work Section of the website and include:

# MWVN HELPLINE

---

On the 14th January 2015, MWNUK launched a bespoke national specialist faith and culturally sensitive helpline that is confidential and non-judgmental, which offers information, support, guidance and referrals for those who are suffering from or at risk of abuse or facing problems on a range of issues. Requests for support and information are received via telephone (0800 999 5786/ 0303 999 5786), the website chat facility, and email during helpline operating hours. Although our reach is primarily Muslim women, the helpline accepts calls from and supports women of any faith or no faith. MWNUK has also supported men who are concerned about women and girls, and those in need of support themselves.

The helpline has its own website ([www.mwnhelpline.co.uk](http://www.mwnhelpline.co.uk)) which provides information, downloadable resources, videos and an online directory of some support services available on a range of issues. It also provides for the anonymous reporting of anti-Muslim attacks or discrimination in the 'Islamophobia and discrimination' section. MWNUK has seen a steady increase in the calls we receive on the helpline. Up until the end of June 2015, we had dealt with 172 number of cases.

MWNUK have received cases on forced marriage, marriage and divorce, rape, trafficking, sexual abuse, domestic violence, homelessness, and many others. It is clear to us that often callers face a multiple issues concurrently. For example, mental health issues often goes hand in hand with the aforementioned list.

## RESEARCH

---

As well as finding out about the experiences of women and girls through our helpline enquiries, we also carry out more in depth research on certain issues. The findings then inform our advocacy and campaigning work and the types of resources we produce.

---

Latest Research: Female Genital Research  
(Birmingham Only)

Conducted: 2014 – 2015

Funder: Rosa

---

(Report to be published in September 2015)

The aim of this research was to better understand the issue of female genital mutilation (FGM) locally. We wanted to find out about attitudes but also more about who are the most influential on determining whether FGM is carried out, where it is carried out, and if women and girls are wanting support and what kind of support. We also want to find out what they think should be done to tackle issue e.g. What MWNUK and statutory bodies should be doing etc? Through the engagement, we also wanted to try and identify community champions on this issue.

# RESOURCE PRODUCTION

---

We produce a range of resources to help raise awareness. Examples of resources include:

- Reports
- Information Booklets
- Posters
- Exhibitions (go to 'Role Models' section)
- Videos

# ADVOCACY

---

Our advocacy work involves channeling views of Muslim women and girls to decision makers such as government and other public bodies. We do this in the following ways:

- By responding to government and public body consultations, which involves collecting views from our members and submitting a report that includes concerns and recommendations
- Holding workshops and collecting views that are then included in a report which is then shared with decision makers
- Attending government and other public round table meetings with Ministers, government and public body officials.

All reports submitted, workshop details and photographs may be found on our website.

# PROMOTING ROLE MODELS

---

Muslim women across UK, including many of MWNUK members make an impact in a wide range of work. It is important that their contributions are recognised and MWNUK endeavours to promote Muslim women at every opportunity. It was great to see MWNUK's Project Manager Shahin Ashraf and network member Adeeba Malik both receive a MBE in the New Year's Honours List 2015. They were both nominated Chair Shaista Gohir for their services to interfaith and community cohesion.

MWNUK continues to support and capacity-build individuals and organisations. For example, the Nottingham Muslim Women's Network.

Our Muslim Women Role Model and Big Sister exhibitions continue to be borrowed by partner organisations. We also developed our resources by producing a role model workshop resource, which was used by a women's project in Bristol. It is hoped that this project will now produce a 'Bristol Big Sisters' role model exhibition display, and they will be working with MWNUK to develop this.

MWNUK believes that it is important to share knowledge, experience, best practice and opinions with Muslim women from different contexts. MWNUK has therefore been involved in a number of international initiatives and any travel expenses have been covered by the host organisation.

## MUSAWAH

> ONGOING

MWNUK has been involved with 'Musawah' ([www.musawah.org](http://www.musawah.org)), the global movement for equality and justice in the Muslim family, since its inception. It also calls for: non-discrimination, justice and dignity as the basis of all human relations; full and equal citizenship for every individual; and marriage and family relations based on principles of equality and justice, with men and women sharing equal rights and responsibilities.

Shaista Gohir is on the 15 member International Advisory Group for Musawah. Faeza Vaid is on Musawah's 'Young Women's Caucus'. And General Secretary Mussurut Zia researched and produced a report on UK Muslim women's life stories, as part of Musawah's Global Life Stories Project, which is a part of the Knowledge Building Initiative on 'Qiwamah' and 'Wilayah'.

We are now promoting and selling their book, 'Men in Charge? Rethinking Authority in Muslim Legal Tradition.' This book is based on feminist research that critically engages with the assumption of and challenges male authority from within the Muslim legal tradition. You can find out more about Musawah on their website [www.musawah.org](http://www.musawah.org)

## ANNUAL INTERNATIONAL MEDIATION CONFERENCE
